### History of Mountain Bike racing

Mountain biking is a relatively new discipline, which has its origins in San Francisco during the 1970s. There are two major competitions within the sport - cross-country and downhill. The cross-country is a two-hour 30-50km race, while the downhill is where riders negotiate, at speed, a winding track down a mountain.

Mountain bike has experienced an incredible rise in global popularity. The first World Championships, held in the USA in 1990, attracted 30 000 spectators. Testimony of the sport's strength was its inclusion in the Olympic program just six years later in Atlanta.

### Mountain Bike racing today

Mountain bike has such a short history that the basics have not changed since its early competitive beginnings in the 1970s. Mountain bike has a unique following of spectators and riders and the establishment of a professional World Cup series of races has led to a highly professional approach by the elite riders. The sport is now widely respected in the sporting community for the level of endurance, balance and discipline required by its riders.

Unlike the slick appeal of track and road bikes, mountain bikes are less aerodynamic and more rugged in appearance and durability, with the emphasis on good suspension and durable fat tyres. Collisions and flat tyres are common and as riders cannot receive outside assistance, they are responsible for any repairs to their bikes and must carry their own spares and tool kit.

### Mountain Bike competition at the Olympic Games

Due to the incredible popularity of mountain bike, it was first included on the Olympic program in Atlanta in 1996. The men's and women's cross-country events make up the mountain bike discipline at the Olympic Games.

Cycling Australia is the principal body for the competitive sport of road, track and mountain bike cycling in Australia.

Australia won its first notable mountain bike medal at the 1994 World Championships in Vail, Colorado, when Cadel Evans was second in the junior cross-country. Evans went on to finish ninth at the 1996 Atlanta Olympic Games. His improvement continued in 1998 when he became Australia's first World Cup winner and finished the year as the world number one.

## Historique du VTT

Le VTT, discipline relativement récente, vit le jour à San Francisco dans les années 70. Le sport est constitué de deux épreuves principales : cross-country et descente. Le cross-country est une course de 30 à 50 km d'une durée de deux heures ; pendant la descente, le coureur doit négocier, à toute allure, une piste sinuuse à flanc de montagne.

Le VTT jouit d'une popularité croissante. Les premiers Championnats du monde, organisés aux Etats-Unis en 1990, ont attiré 30 000 spectateurs. Il y a six ans, l'inclusion de ce sport au programme des Jeux Olympiques d'Atlanta fait figure de consécration.

## Le VTT de nos jours

Du fait de la courte histoire du VTT, ses principes sont restés inchangés depuis les débuts de la compétition, dans les années 70. Le VTT a ses fidèles, tant chez les coureurs que chez les spectateurs, et la création de manches professionnelles pour la Coupe du monde a générée une approche différente de la part des coureurs de haut niveau. Le sport est à présent bien respecté dans la communauté sportive, de par le niveau d'endurance, d'équilibre et de discipline qu'il requiert.

A la différence des vélos de cyclisme sur route et sur piste, tout en surfaces lisses, les vélos de VTT sont moins aérodynamiques et plus robustes d'aspect, avec une suspension renforcée et des pneus épais et résistants. Les collisions et les crevaisons sont monnaie courante. Les coureurs n'étant pas autorisés à recevoir d'assistance, il leur incombe de réparer eux-mêmes leurs vélos avec les pièces détachées et les outils qu'ils portent sur eux.

## Le VTT aux Jeux Olympiques

Grâce à son extraordinaire popularité, le VTT a été inclus, pour la première fois, au programme des Jeux Olympiques à Atlanta, en 1996. La compétition est composée des épreuves masculine et féminine de cross-country.

La Fédération Australienne de Cyclisme (*Cycling Australia*) est l'organisme principal chargé du cyclisme sur route et sur piste, ainsi que du VTT en Australie.

C'est en 1994 que l'Australie remporta sa première médaille de VTT, lors des Championnats du monde de Vail, Colorado. A cette occasion, Cadel Evans décrocha l'argent dans l'épreuve de cross-country juniors. Par la suite, il se classa neuvième lors des Jeux d'Atlanta, en 1996, pour atteindre la consécration en 1998, lorsqu'il devint le premier Australien à remporter la Coupe du monde et le meilleur coureur de VTT du monde pour cette année.

Si un concurrent prend un tour de retard, il sera autorisé à finir ce tour, puis devra abandonner la course. 	<b>Minimum</b>	<b>Optimum</b>	<b>Maximum</b>
Hommes	2 h 00	2 h 15	2 h 30
